

**Indian Institute of Technology Gandhinagar**  
**Advertisement for the Position of Helper**  
**In Fire Engineering Lab**

IIT Gandhinagar invites applications for **1 position of Helper** for projects related to fire testing and documentation. The day to day work requires help with:

1. coordination among internal stakeholders and offices
2. coordination with visitors
3. upkeep of related laboratories and offices
4. day to day affairs and functioning of related laboratories and offices

The candidate should have a helping attitude as the work involves engagement with several students on different experiments. Ability to work with simple construction related tasks, electrical and electronic connections is desired. The candidate should have a positive attitude towards the assigned responsibilities and should be open to working in off-hours depending on the need of the experiments.

Degree, diploma or ITI in any field from a recognized Institute/ University will be an added advantage but is not mandatory. Candidates having previous working experience with IITs will be given preference.

**Compensation and term of position:**

Monthly remuneration will be in the range of Rs. 10,000/- to Rs. 15,000/- per month.

Initial appointment will be for 1 year with the possibility of renewal depending on performance.

**How to apply:**

The interested candidates are requested to apply using this [Online Form](#) by January 15, 2023.
